Josefina Flores

Project Coordinator

USMCA/North American trade interests: The commitment of the EPHCC toward the El Paso business community and business development in our border region aligns with my passion to facilitate international relations.

This commitment stem from my experiences, as my parent's agricultural business was directly affected by NAFTA, my family emigrated from Chihuahua to El Paso.

As a first generation student, immigrant, and part of a low-income community, I am no stranger to the difficulties of minorities and immigrants in the United States.
